

Information for the Finnish Country page for the RSA website

Finland enjoys a long tradition in regional studies, geography and rural studies. All the departments and centres listed below have detailed information in English, some more some less, and some of them have documents and working papers also in English. English also serves well to contact and visit the academic research centres and the other organisations.

COUNTRY REPRESENTATIVE OF FINLAND

Professor Markku Sotarauta
Head of the Department of Regional Studies
Director of Research Unit for Urban and Regional Development Studies
Kanslerinrinne 1
FI-33014 University of Tampere
Finland

SELECTED CENTRES

University of Tampere, Department of Regional Studies has three intertwined main disciplines that are regional studies, local governance and environmental policy.

The Department of Regional Studies is an academic community of faculty and students concerned with the societal, economic and environmental development in all its complexity. The Department is nationally and internationally recognized for its interdisciplinary academic expertise in the fields of environmental policy, urban and regional development, local governance and political geography.

The Department is widely acclaimed for its capacity in education. The Ministry of Education has nominated it three times as a national centre for educational excellence. The latest nomination was for years 2007-2009 (also 1999-2000 and 2001-2003).

The common denominator of the various research groups and their projects is the ambition to understand and analyze social dynamics of spatial and environmental change. Alongside the specific research themes of the individual research groups there are five crosscutting themes that are common to all the groups at the Department: a) Institutions and institutional change, b) political processes, governance, democracy and participation, c) information and knowledge; politicization of knowledge, d) space and identity and e) management, leadership and networks.

The Department of Regional Studies is one of the four departments at the Faculty of Economics and Administration.

Sente has a Net Library that contains working papers, research reports and articles in English - http://www.sjoki.uta.fi/sente/netlibrary_en.php

The Department of Geography at the University of Helsinki is the oldest and largest Geography department in Finland. The Faculty has about 25 members. In Helsinki geography has two majors: geography and regional studies. Geography is divided into physical geography, human geography, geographical education and geoinformatics. Regional studies is divided into urban and planning geography, development geography and tourism geography. Minors can be made in geography, regional studies, geoinformatics or urban and planning geography. Department also provides an international master's degree programme in geoinformatics (GIMP). The current focus in research is in remote sensing and geoinformatics, hydrogeography, political geography and urban geography.
